

DEFT

Carbon Fiber Technician - Job Description

Starting Rate: \$14/hr.

Description:

- Deft Dynamics is looking for a technician who will be responsible for fulfilling multiple tasks related to the manufacturing and finishing of carbon fiber components.
- The carbon fiber components being manufactured are focused primarily on the automotive and defense industries.
- Working under Deft's CTO Austin Gurley and Deft's Deployment Lead Bain Gurley.
- Exciting, hands-on work assembling carbon fiber composite structures and some of the accompanying electronics.
- No experience needed besides skilled hands and a passion for building and creating.
- Deft's office and shop are located near Pepper Place in downtown Birmingham, AL.
